Data Analytics & Visualization

Data Storytelling

BI Standardization

Process Improvement

I've created exactly what they want

...they just don't get it

Why care?

An example from the real world..

Vessel tracking

- Loading time
- Start time
- Time of arrival
- Unloading

Need: Efficiency report

Why care?

An example from the real world..

Data Scientist (basic Power BI knowledge)

(Huge amounts of) Data

- GPS by second
- Vessel data
- Weather & current data
- Load/Unload data

Why care?

An example from the real world..

The Audience

Vessel 3 won!

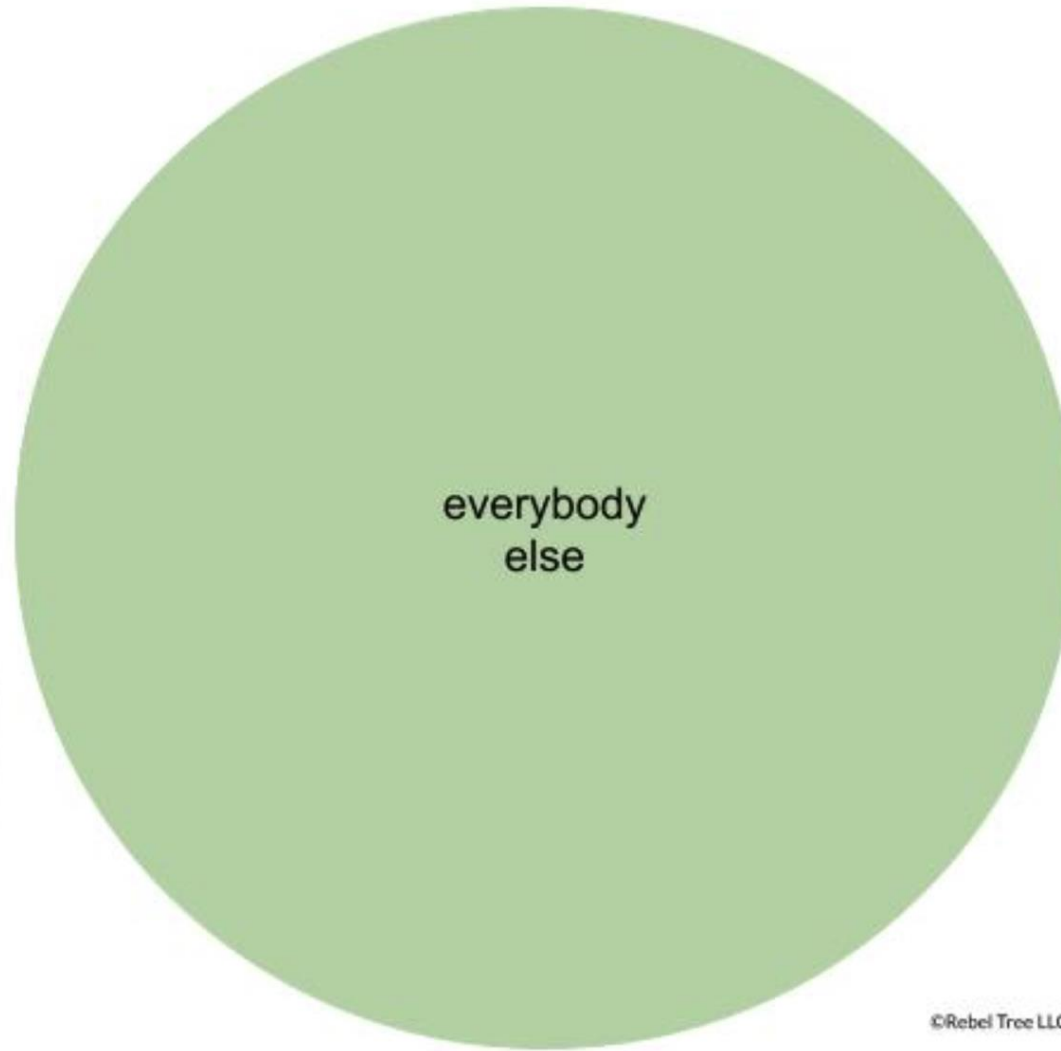

I've created exactly what they want

...they just don't get it

The “Everybody Knows” Fallacy

Who is ALL?

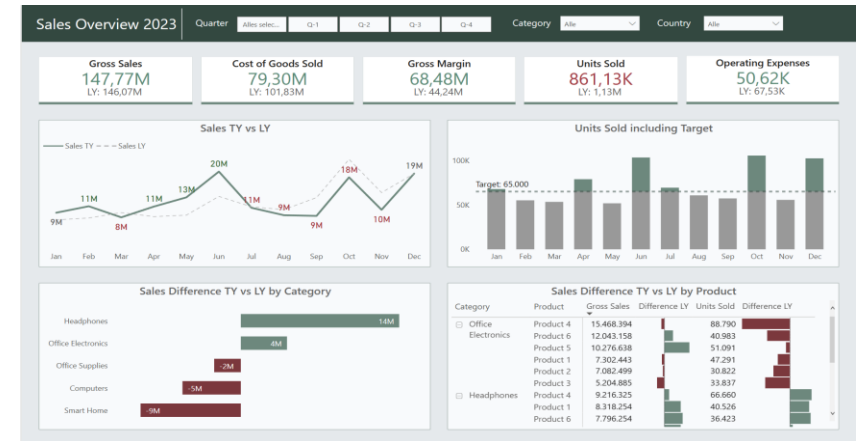

Who is All?

- Who is the audience?
- What is their knowledge level?
- How are they going to use the report?
- How much detail do they need (and understand)?
- What are they really looking for -> Actions
- Disabilities?

Ask questions!

- Provide examples
- What do you see?
- Ask what actions they expect to be able to take
- Ask about prior experience (& check)
 - APP
 - Workspace
 - Desktop

Personas & the message

Personas

- Fictional representation of users
- Needs & wishes
- Similarities and difference
- Don't make assumptions

1 key message (sentence)

- What does
this tell me?

Storyboard

Gather all the information

- Sticky Notes (easy to rearrange)

Translate pieces to design

- Each piece tells a part of the story
- Check your story

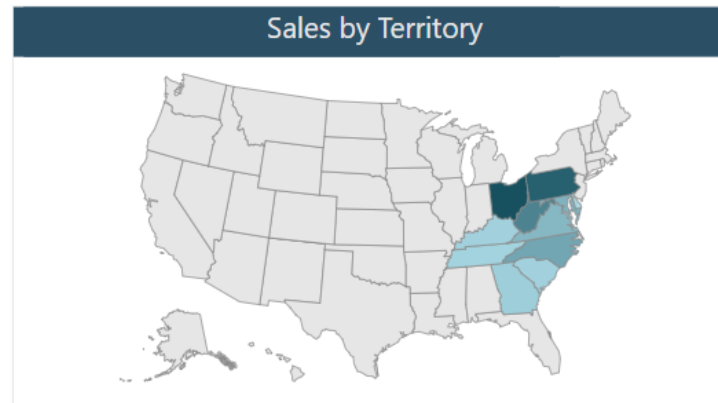

Keep it simple

Using the *Right* Visual

Choosing the visual 1

Declutter & Enrich

- What information & how much guidance is needed?

Context is key!

- Title & color coding

Sales quota by month with target

Sales target hit 4 times in 2023

Achieving more than expected in may, june, july and august

● Below target ● Above target - - - Target

If possible - Simplify

Sales target hit 4 times in 2023

Achieving more than expected in may, june, july and august

Sales vs Forecast

Sales were below forecast in february, march and june

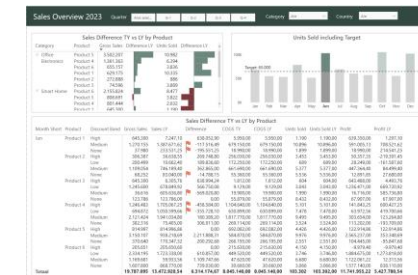

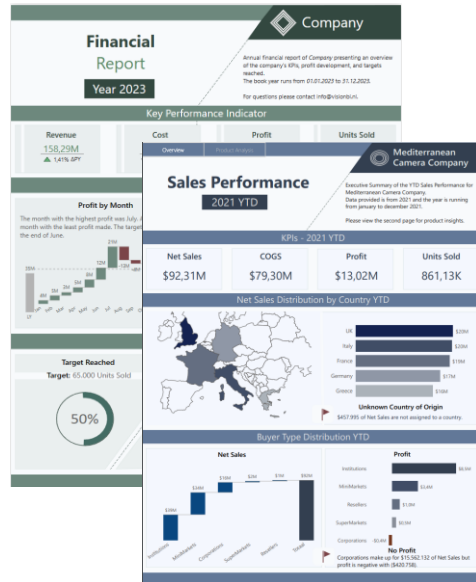

● Sales - - - - Forecast

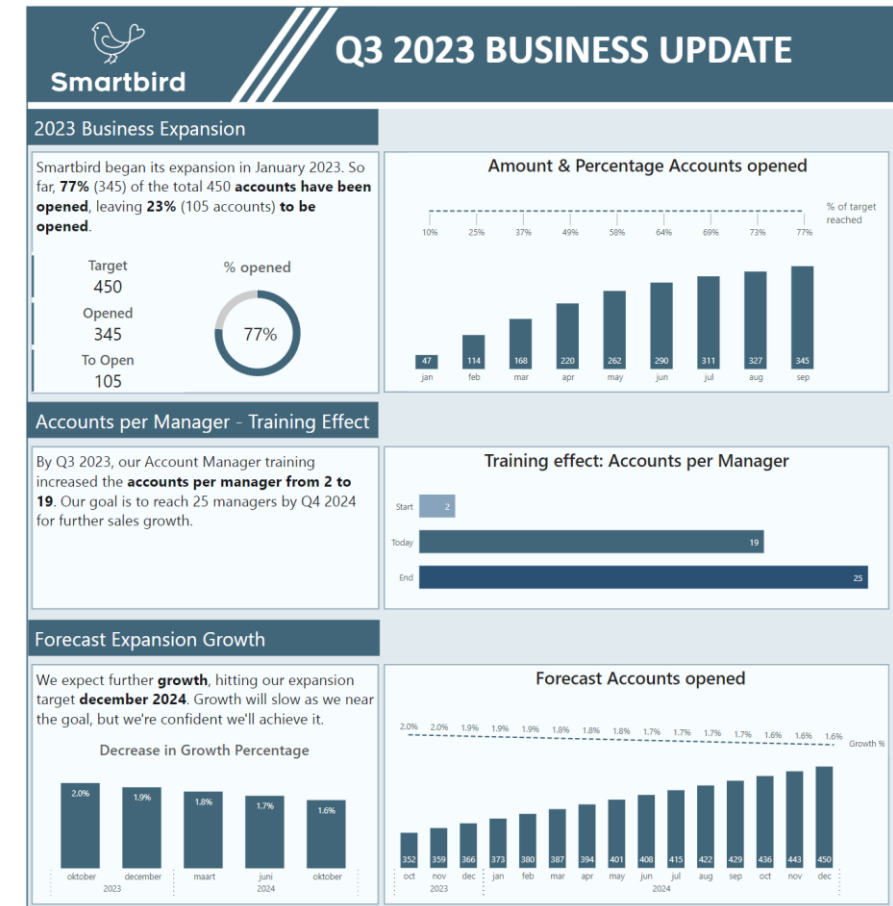

**Experience
+
Message
=
Design**

Experience + Message = Design

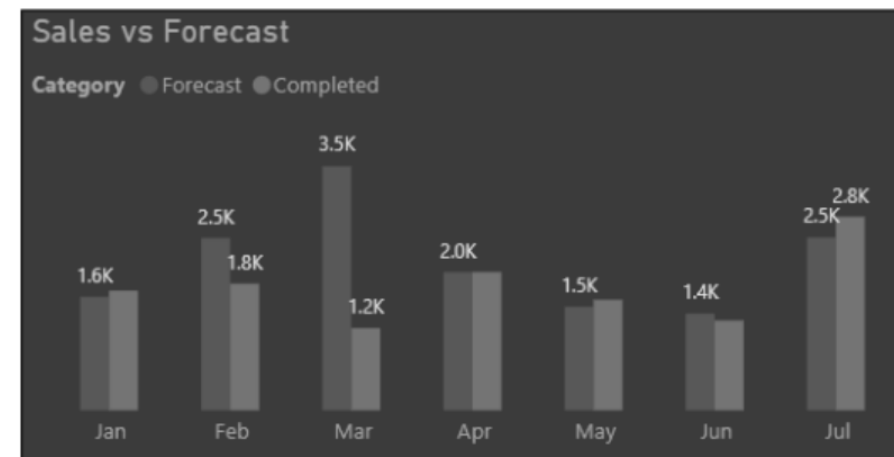

High vs. Low Experience

Accessibility

Visual

Accessibility

- Mobility
 - Difficulty using mouse or keyboard
- Cognitive impairment
 - Difficulty understanding complex information
 - Difficulty understanding visuals
 - Difficulty understanding numbers

Takeaway

- Consider the audience
- 1 message
- Use a storyboard & check the visuals
- Think about accessibility
- Keep it simple

Session Feedback
